Kathy Copeland, Executive Director
Disabled Sports Eastern Sierra
Mammoth Lakes, CA 93546

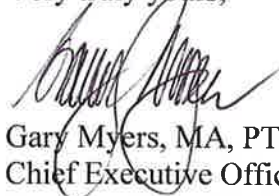

Dear Kathy:

This letter is sent on behalf of the Southern Mono Healthcare District dba Mammoth Hospital to wholeheartedly support your efforts to build and operate the National Wounded Warriors Center on the secured Mammoth Lakes Foundation property contiguous with the Mammoth Campus of Cerro Coso Community College.

As you are aware, Mammoth Hospital has a proud 35 year history of providing quality healthcare services to the residents and visitors of the Eastern Sierra. Our mission is to promote the well-being and improve the health of our residents and guests. We pride ourselves on delivering "*Meticulous care by Memorable people in our Majestic location*". We appreciate the value of our beautiful mountain setting that sets a stage for healthy lifestyles and long-term healing. Our Wounded Warriors have sacrificed greatly for the preservation of our freedom and we would be honored to support their goals of re-integration into mainstream society facilitated by the unique whole-person and whole-family rehabilitation programs that will be offered through the National Wounded Warriors Center.

Many of our young soldiers have not yet had the benefit of higher education. Your plan to combine educational opportunities with physical, behavioral, and social rehabilitation through academic classwork and vocational training offerings provides a holistic approach to their full recovery of meaningful purpose and fulfilling lives. The significant resources of our medical staff, hospital staff, facilities, and technology can augment your efforts and are at your disposal. We would be proud to participate in your efforts to support and assist our veterans in any way needed.

Very truly yours,

Gary Myers, MA, PT, OCS
Chief Executive Officer
Southern Mono Healthcare District
