

November 7, 2014

Kathy Copeland, Executive Director
Disabled Sports Eastern Sierra
Mammoth Lakes, CA 93546

Dear Kathy,

This letter is being sent on behalf of the Mammoth Hospital Orthopedics and Rehabilitation departments. The physicians, therapists, administrative and support staff are excited and fully support the project to build a National Wounded Warriors Center. As professionals who see patients with these types of injuries, we understand the importance of a place to heal physically, mentally, and emotionally and reintegrate into civilian life. Our mountain environment and small community with a college and hospital provide the perfect infrastructure for the Center.

Our physician and rehabilitation staff would like to support our Wounded Warriors in any way we can. We look forward to further discussion and progression of the Center's plans. This type of program can make a big difference in an individual's life and this is a great way to give back for the huge sacrifice these men and women have made for us. We would be proud to be a part of making this happen and congratulate you on your vision and dedication to this great cause.

Sincerely,

Karilyn Myers, PT, MA, OCS
Manager of Orthopedics and Rehabilitation
Mammoth Hospital.
